

Appendix

The checklist scores

Sentences		○	△	×	?
1	Tamiflu is an oral anti-viral drug for the treatment of influenza A or B.	14			
2	Dozens of children under the age of 10 and teenagers have suffered mental or neurological disorders, including abnormal behavior, after taking Tamiflu.	22			
3	Thus, the Health, Labor and Welfare Ministry issued emergency instructions to prohibit doctors from prescribing it to patients aged 10 to 19.	22			
4	The ban on Tamiflu does not apply to children under 10 because they are at risk of dying from influenza that Tamiflu is known to treat effectively.	28			

Instructions

- (i) Enter English sentences you were able to write down during Writing Reproduction activity in the column below the original English sentences.
- (ii) Compare your English sentences with the original ones, and then enter the numbers of ○, △, ×, and ? of each line in the right box in the manner described below.

○... Word perfectly matching with the text above

△... Word very close to the original one or with a small spelling error

×... Word making no sense (Do not count the word you were not able to write down.)

?... Word difficult to determine as △ or ×
